Ceanothus americanus (New Jersey Tea)

- Has luxuriant glossy leaves and bright white flowers
- Attracts hummingbirds
- Deer resistant
- Native
- Mature height 24-36" tall; Mature spread 36" wide

Rhus aromatica 'Gro Low'

'Gro-Low' fragrant sumac is a low-growing shrub that can be used in both residential and commercial landscapes. This cultivar of the Midwest and native of the East tolerates dry soil and tough urban sites; its dark green, fragrant leaves turn bright orange or red in the fall.

Mature size: 2 to 3 feet tall and 7 feet wide

Seasonal interest: Glossy, dark green three-leaved foliage turns orange to red in fall; clusters of lime green or yellow female flowers open in late April or May; clusters of dark red berries that are covered in fine hairs ripen in late August; prostrate, spreading form.
